

## Mental Ad'scending

I find myself wandering through a labyrinth of consciousness.

## The Big Band...

The band of the universe: Memento a mi amor  
We are the "distant memories / localized consciousness  
of our passed away ~~family~~ family Tite.

The only Network that is undead in all senses is  
Fungi.

If we had truly clean bodies & were to shit out organic  
fruit, veggies & mushrooms, what kind of plants could we  
grow?

Build a strong foundation here & all go to the land  
together.
